

Solving industrial noise problems for more than 35 years

- | | |
|---|---|
| 1 Fluegas silencer bypass | 6 Intake duct, exhaust duct, silencer and stack |
| 2 Fluegas silencer HRSG | 7 Enclosure |
| 3 Air inlet silencer | 8 Blow-off silencer for valve or flash tank with pipework |
| 4 Air intake system with silencer | 9 Start-up flash tank |
| 5 Splitter - silencer for cooling tower | 10 Condensate tank |

**BBM Akustik Technologie –
 a leading supplier of industrial silencers, enclosures,
 exhaust systems and air intake systems.**

The range of services offered by BBM Akustik Technologie, headquartered in Germany, comprises acoustic engineering, product-specific advice, manufacture, delivery and mounting of large-scale silencers, acoustically optimized facades, enclosures, engine exhaust silencers, complete exhaust systems and air intake systems. Our products are installed in power stations and production plants all over the world.

BBM Akustik Technologie GmbH
 Robert-Koch-Strasse 11
 82152 Planegg, Germany

Our products

Flue-gas silencers

- Bypass silencers
- Gas turbine silencers
- HRSG ducts

Steam silencers

- Vent silencers
- Start-up silencers
- Blow-off silencers

Acoustic enclosures and claddings

- Facades and shrouds
- Partial HRSG enclosures
- Steam and gas turbine enclosures

Exhaust systems

- Exhaust ducts
- Silencers and stacks
- Retrofits

Engine exhaust silencers

- Intake and exhaust flow silencers
- For diesel and gas engines
- DNV certified spark arrestor

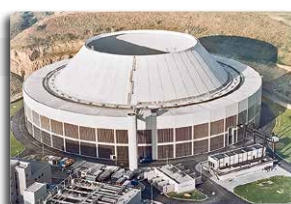

Condensate systems

- Complete system design
- Condensate tanks and flash tanks
- Piping and blow-off silencers

Cooling tower silencers

- Natural draught cooling towers
- Forced air cooling towers
- Cell cooling towers

Air intake systems

- Full-scale air intake systems
- Multi-stage static filter systems
- Self-cleansing pulse filter systems
